Planning Resources for Transition-Focused Education

NTACT recognizes that educators, service providers, families and students are addressing learning in new and different ways currently. To address these changes NTACT has assembled some of its own resources, as well as resources from partner centers and organizations. We have added in resources shared from practitioners and families, as well. Not each of the below resources or links necessarily meet NTACT's usual criteria of an evidence-based or promising practice. However, each addresses a need and is from a reputable source.

During this new time, we encourage practitioners and family members to begin with (a) a student's IEP or 504 Plan as a starting place for what skills to address and (b) consider the context of the provision of instruction. Guidance documents from federal agency sources are also available on our website.
