

Using Services to a Targeted Group to Increase Opportunities for Competitive, Integrated Employment for Students and Youth with Disabilities

What is the level of evidence?

This practice was identified by Rehabilitation Research & Training Center on Evidence-Based Practices for Vocational Rehabilitation (RRTC -EBP VR), and has been labeled by NTACT as a Research-Based Practice. *More information on NTACT's process for identifying effective practices is available here: [NTACT's Effective Practices](#).*

What is the practice?

Services to targeted groups included VR services such as counseling and on the job training delivered effectively to specific populations, such as individuals with Traumatic Brain Injury or intellectual disability.

Where is the best place to find out how to do this practice?

You may also correspond with the RRTC-EBP-VR <http://research2vrpractice.org/contact/> to request more detailed information from the original author regarding implementation of this practice.
